SUMMARY

With over 10 years of experience in software development and a passion for cloud technologies, I've led teams and projects to drive innovation and efficiency. My extensive background in AWS, coupled with a proven track record in Agile environments, positions me as an ideal candidate for challenging roles.

EXPERIENCE

Lead Full Stack Developer	01/2019 - Present
Tech Innovations Inc.	Seattle, WA
- Spearheaded development of a cloud-based analytics platform, enhancing data processing speed by 40%. - Managed a team of 12 developers, fostering a collaborative environment that reduced project delivery times by 25%. - Implemented Agile methodologies, improving project flexibility and stakeholder satisfaction by 35%. - Led migration of legacy systems to AWS, reducing operational costs by 20% and improving system scalability. - Developed and integrated a robust security framework across all projects, resulting in a 50% reduction in vulnerability reports. - Instituted a CI/CD pipeline using Jenkins and GitLab, enhancing deployment efficiency by 30% and reducing rollback instances.	
Senior Software Engineer	06/2015 - 12/2018
Global Tech Solutions	Seattle, WA
- Created a multi-platform application using Angular and Node.js, achieving a user base growth of 100K in the first year. - Optimized database operations with MongoDB, improving data retrieval times by 50%. - Implemented robust data encryption methods, enhancing system security and user data protection. - Contributed to reducing server downtime by 40% through efficient backend solutions. - Initiated and led weekly team coding sessions, improving team skills and project consistency.	
Software Developer	03/2012 - 05/2015
Innovative Web Solutions	Seattle, WA
- Developed and maintained client websites using JavaScript and TypeScript, increasing client satisfaction by 30%. - Automated manual back-end processes with Python scripts, saving up to 60 hours of manual work per month. - Enhanced application performance by 20% through effective database management and optimization. - Collaborated in a cross-functional team to deliver a comprehensive e-commerce solution, boosting the client's sales by 150%.	

EDUCATION

Master of Science in Computer Science	01/2010 - 01/2012
University of Washington	Seattle, WA
Bachelor of Science in Information Technology	01/2006 - 01/2010
Seattle University	Seattle, WA

KEY ACHIEVEMENTS

- ★

Best Innovative Solution Award

Received at Tech Innovations Inc. for creating a predictive analysis tool that reduced data processing times.
- 🔧

Agile Transformation Pioneer

Instrumental in transitioning the development team to Agile methodologies, improving project delivery times and flexibility.

SKILLS

AWS Cloud Services · Angular & Node.js ·

Java/Spring & Python · MongoDB & SQL ·

Agile Methodologies · CI/CD Pipelines

PROJECTS

- Cloud-Based Inventory Management

Developed a scalable inventory management system on AWS, reducing operational costs by 30%.
github.com/ChloeMartinez/InventoryManagement
- Secure Chat Application

Engineered a secure, real-time chat application using Node.js and WebSocket, supporting 10K concurrent users.
github.com/ChloeMartinez/SecureChat

CERTIFICATION

- Advanced AWS Architecting

Focused on complex AWS solutions; provided by Amazon Web Services.
